SHARING

Working together in Slovenia supporting our neighbors

Pastor Sašo and Renata – Kumanovo, Macedonia. With great joy Sašo was able to share that the Lord has provided substantially the funds necessary to finally complete their sanctuary. This is a wonderful answer to prayers. Since 2010 when the facilities were opened, the church has used the 1st and 2nd floors for services and Bible school ministries, we have been asking the Lord for the funds to complete this important ministry project. The church in Kumanovo has had a very difficult time during the Covid-19

season. They have lost 3 members to the Covid-19, which has a significant impact on a smaller church and their families. Sašo and Renata's daughter Naomi, who is the best violinist for her age in Macedonia, is currently studying in Mozart Academy of Music in Austria. Please pray for Sašo in Renata, their family, the church in Kumanovo, the building project, and the church in Macedonia.

Boris and Urša – Podgorica, Montenegro. Working in one of the least reached countries for the Gospel in the world, Montenegro has many challenges. We have had the privilege of having Urša who is Slovene and their two children with us for several weeks over the summer. Boris with his team have built a bar-b-que area on the church property in Podgorica to facilitate fellowship events. Boris and Urša lead worship in the local church, as part of this work Boris has written several worship songs, some of which are sung in Croatia. We are hoping to help Boris record some worship at the end of the summer. Please pray for Boris and Urša, their two children, their worship leading, the growth of the kingdom in Montenegro.

Join Mozaik Missions and partner with us to impact the Balkan nations.

- # Sign up for newsletter several times per year.
- # Pray regularly.
- # For as little of 10€ per month you can support your missionary.
- # When travel opens – join a Mozaik Missions team.
